### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 4, 2006 has been entered.

2. Applicant's arguments, see pages 6-10, filed April 4, 2006, with respect to claims 1,3-6, 23-31 have been fully considered and are persuasive. The rejections of claims 1,3-6 have been withdrawn.

### ***Allowable Subject Matter***

3. Claims 1,3-6,23-31 are allowed.

The following is an examiner's statement of reasons for allowance: While the prior art does disclose the use of both an evaporative and non-evaporative getter, the prior art does not disclose laminating the getters in successive layers. With regard to the Ono et al. reference, while a successively laminated metal back and getter being formed on the image display member is disclosed, and the metal back is disclosed as being able to double as a getter, the examiner does not now believe that Ono et al. disclose a getter being laminated on the metal back when the metal back is doubling as a getter. Hence claims 1,23,28,30 are allowed. Claims 3-6, 24-27,29,31 are allowed as a result of their dependence on claim 1,23,28 or 30.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the

issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
